A NEW ERA IN WASHING

Labor, Time, Clothes and Fuel Saved

BY THE USE OF

WARFIELD'S

COLD WATER SELF-WASHING SOAP!

This **SOAP** washes the finest as well as coarses fabrics, in cold, warm, hard, soft or salt water, without boiling or machinery, and is guaranteed not to injure clothes in the least when used according to the directions.

One good washerwoman can do more and better washing with it than two can do in the same time with the best machines, using the ordinary soaps in market.

By using it, you get rid of the annoyance of hot water in summer, and of steam in the house (so productive of colds) in winter.

☞ For Sale by Grocers generally.

ESTABLISHED 1857.

500,000 PEOPLE

Throughout the United States & Canadas,

HAVE USED

DR. J. MILLER'S

SOOTHING & HEALING

BALSAM,

And cheerfully recommend it to the public as being the BEST FAMILY MEDICINE in the world for all internal and external complaints for which it is recommended. It is fast gaining popular favor, and has already reached extensive sales. All we ask, in order to convince the most skeptical of the powerful efficacy of THIS GREAT REMEDY, is the trial of one bottle, costing only 50 cents, and you will never be without it or hesitate to recommend it to your friends. Sold by druggists everywhere. Every bottle used according to directions is warranted to cure, or money refunded.

The proprietors CHALLENGE THE WORLD to produce its superior as a remedy. Testimonials received daily in reference to the astonishing cures it has performed. It is used and recommended by prominent physicians throughout the country.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the face or breast, Ear Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season, it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflamation of the Bowels, Dysentery, Kidney Complaints and Cholera Morbus.

THE "BALSAM" has also given great relief in many cases of Diphtheria.

No person need fear to use this medicine, as it is purely vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

Chicago, Rock Island, and Pacific Railroad Company.

600,000 Acres

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S

SELTZER

APERIENT.

Sects and Creeds Differ, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only. SOLD BY ALL DRUGGISTS.

Wait and See.

When my boy with eager questions,
Asking how, and where, and when,
Taxes all my store of wisdom,
Asking o'er and o'er again
Questions oft to which the answers
Give to others still the key,
I said to teach him patience,
"Wait, my little boy and see."

And the words I taught my darling
Taught to me a lesson sweet;
Once when all the world seemed darkened
And the storm about me beat,
In the "children's room" I heard him,
With the child's sweet mimicry,
To the baby brother's questions
Saying wisely, "Wait and see."

Like an angel's tender chiding
Came the darling words to me,
Though my Father's ways were hidden
Bidding me still wait and see.
What are we but restless children,
Ever asking what shall be?
And the Father in his wisdom,
Gently bids us "Wait and see."

"Satan trembles when he sees
The meanest saint upon his knees."
Imagine, then, his wild despair
At seeing Colonel Jeames at prayer.
He never saw, in all his dreams,
A meaner saint than Colonel Jeames.

NEWPORT DAILY NEWS.

THURSDAY, June 29, 1871.

Political Outlook.

A number of State elections occur this fall. They are generally of local interest only, except as they will indicate the drift of the tide in the presidential campaign of 1872. The sails have been spread in many States with special reference to the national issues. The republicans are willing to accept the results of these elections as indicative of the coming event, even though past experience has shown them that the full party vote is never polled in these minor elections. The democrats have therefore taken pains to shape their platforms in all possible conformity to the situation next year. Abandoning their landmarks, they have staked all their chances of success in the presidential campaign, upon the reception which will this fall be extended to their departure. It is seldom that the national situation crystallizes so long in advance.

Kentucky's election, on the 7th of August, is the first in point of time. Gen. John M. Harlan and Hon. P. H. Leslie are the republican and democratic nominees for Governor. Two men in more complete contrast were never antagonists. Gov. Leslie is a representative of the worst type of the famous Kentucky Bourbon. The "new departure" in Ohio is ignored by him. He and his party enter upon this canvass on the old issue of hostility to the Constitution as it is. All these facts render it certain that the proverbial democratic majority in Kentucky will dwindle into insignificant proportions next August, if it does not melt wholly away. For the first time the negroes will vote without intimidation. Their 40,000 ballots will go solid against the party which has always oppressed them. The democratic majority last year was 31,000; in '68, it was over 90,000.

On the first Tuesday in September, California and Vermont will elect Governors. The democratic convention in California has renominated Governor Haight, adopted the Ohio platform as regards the amendments, and opposed China immigration. The real issue in California is a local one, and relates to railroad subsidizing. Governor Haight is opposed to this. The republican convention, held next week, will probably nominate Hon. Newton Booth, who is also opposed to the subsidee. Three Congressmen are also to be elected in California.

The Maine election occurs on the second Tuesday in September. The republicans will probably renominate Governor Perham and elect him by an increased majority. In October, the three great States of Pennsylvania, Ohio and Iowa hold their elections. The canvass has already begun in the two former States. The democracy has incorporated the new departure in their platforms and the old line democrats are carrying the opposition they made in convention, into the canvass itself. It is impossible to harmonize opinions so antagonistic. The republicans on the contrary have been inspired by these democratic dissensions to bury all conflicting opinions on minor points, and unite for the most vigorous campaign since the presidential election. These three States will stand side by side in the republican column.

A governor is to be elected in November in New Jersey, Massachusetts, Minnesota, Georgia, Louisiana, and Maryland. Republicans never entered upon a canvass with a better prospect of success. They have learned some hard lessons in the immediate past, and everywhere manifest a disposition to profit by them. The breaches in their walls are being carefully repaired. By the autumn of 1872, they will be impregnable.

The dynasty of King Amadeus of Spain is threatened. The two branches of Bourbons—the followers of Isabella and the Montpensierists—have affiliated, and thus form a powerful combination. Their plan is to dethrone Amadeus, and make the Duke of Montpensier Regent, until the eldest son of Isabella, Infant Alphonso, arrives at the proper age, when he will be placed on the throne. The united Bourbons are not alone in their opposition to the new King. The Carlists still have aspirations of their own, and the Reds want a Republic. These parties, however, are independent of each other, and it may be that in the general scramble for power, all will be defeated, leaving Amadeus secure in his power. Whatever the result, the Bourbons can have little hope of gaining the ascendency in Spanish politics. If they are wise, they will allow the revelations of the revolution of 1868 to shape their course.

Dr. Burroughs, at a meeting of the Massachusetts Medical Society, said that geologists had never yet made a discovery at variance with the truth that in the beginning God created the heavens and the earth. Precisely so; but a great many geologists have been denounced as infidels for expressing a disbelief in the literal account of the creation in Genesis. Clergymen are finding out that no harm will be done to true religion by acquiescing not in the assertions but in the demonstrations of science. God remains, whatever becomes of legends and traditions and notions—however the work was done. He still was the worker. A recognition of this truth would have saved a great deal of uncharitable talk and some cant.

The full and specific instructions from the secretary of the navy for Capt. Hall's Arctic expedition have been printed. Prof. Henry, of the Smithsonian Institute, appends a letter which says that though the object of the expedition is not primarily of a scientific character, yet that the opportunity may not be lost a committee of the National Academy of Sciences has been appointed to prepare instructions on the different branches of physics and natural history which will fall under the observation of the expedition: and accordingly, a variety of scientific instruments have been contributed for the use of the accompanying scientific party.

Dr. Bullis, Republican nominee for Lieutenant-Governor of Iowa, was thrown from a sulky at Decorah, Monday, had several ribs broken and received other severe injuries.

The Hartford Post says that no plant yields anything like so much nutriment as the banana, and certainly, in Hartford at least, nothing produces so much cursing as banana peels.

The Delaware peninsula will, it is reported, this year, ship 3,000,000 baskets of peaches, or 500,000 more than in [illegible].

A Chicago sportsman's idea of heaven: "I would have it a boundless prairie, with an eternal September, and I'd have with me an everlastin' gun and a never-dyin' dog."

Dolls' eyes form the staple of a large manufactory in Birmingham, England. The eyes are packed in hogsheads, and sent to all parts of the world.

Two of Hartford's sewers have caved in within a day or two, and the people are wondering whether they are all built on that principle. It will be a costly job to repair them.

The fashionable ornament for the centre of dinner-tables just now, is a large block of ice lying on a broad silver receiver, surrounded with flowers and green vines. It is one of the most eye-comforting things imaginable.

An Elmira, N. Y., shoemaker is immensely amused at the way an old rat on his premises has been fooled. The thrifty rodent has gone through a box of shoe pegs, and put away about a quart of them for winter use under the belief that they are oats.

A man named McNamee attempted on Saturday at Princeville, Ill., to hang Miss Potter, a school teacher for punishing his child. He seized the lady, fastened a rope around her neck and dragged her to the school door, when she was rescued by two men passing at the time. McNamee is in jail.

A splendid mirage was witnessed at Gloucester on Sunday last, which extended along the south there and far eastwardly, embracing a view of Boston light-house, hotels, houses, trees, ships, brigs, schooners and sloops, sailing in various directions. The spectacle was grand and continually changing, as the moving objects changed their positions, and the strata of air became more dense or rarefied.

Summer Gossip.

The servants in the boating establishments of Long Branch are spoken of as souse-maids.

It is thought that the immense exodus of people to Europe this season, will have some effect upon the hotels at the fashionable watering-places of this country.

The Chittenango White Springs are open for the season. The first grand hop of the season will take place there on the evening of the Fourth of July.

The season at Sharon Springs is pronounced to be so far very successful. The hotels are nearly all full and the number of visitors daily arriving very large.

Oak Bluffs, and the Martha's Vineyard camp-meeting grounds, are becoming quite a popular seaside resort, and justly so. Many summer visitors have already arrived, and active preparations in the shape of new cottages, &c., are making for the reception of others.

Major Ben. Perley Poore, Washington correspondent of the Boston Journal, and Clerk of the Printing Records of Congress, goes every warm season to his magnificent estate known as "Indian Hill Farm," at Newbury, Mass., adjoining Newburyport. During his present Summer vacation Secretary Boutwell has appointed the Major, who is a faithful journalist and officer, Superintendent of Repairs on the Custom House at Newburyport.

Fashion Notes.

Charms on watch guards are again becoming fashionable.

Ladies' fans are carried slung to the belt by a cord or tassel.

Broad hats are fast superceding jocky and gipsy bonnets.

Lace has never before been so much worn as during this season.

Wild flowers are coming into general favor for hat trimmings.

The quieter shades of kid gloves are to be worn during the warm season.

The colored and white piques are to be greatly worn by ladies at the seaside this summer.

The hair is no longer worn high but quite flat on the top. Flowers and grasses form the headdress of the young and lace marabout tips and ribbon those of elderly ladies.

Upper skirts are now made like the old fashioned tucker, open in front and quite straight at the back and looped up at irregular intervals to form a large panier.

PERSONAL.—The Boston Journal, in a notice of the election of Mr. Tilton to the Presidency of Phillips Academy, pays the following compliment to the late Superintendent of the Schools in this city:

Mr. Tilton is regarded by those who know him, and especially by the people of Newport, who are best qualified to judge, as eminently qualified for this position. When he went to Newport the grading of the schools was not yet completed, and he entered upon that task with a delicate perception of existing needs and of the resources at hand, and with a tact and patience which surmounted every difficulty and produced the most desirable results. He proved a wise and skillful organizer. And, what is remarkable, in all his dealings, in infusing his spirit into the system, in introducing and carrying out new plans, he proceeded with such consideration for the feelings of others, that he wounded none but won all, and few, perhaps, were aware, while accomplishing his purpose, that they were following any other suggestions than their own.

Mr. Tilton's salary was $2500; he will receive $3000 per year; but this is not a pecuniary gain, nor was it a motive in changing his field of labor. Indeed the citizens of Newport would rather have made it to his pecuniary advantage to remain. He goes to Andover from a high sense of duty, leaving Newport with extreme reluctance, and it is with no less regret that the people part with him at the end of a five years' relationship, so mutually pleasant and profitable.

Albert Barnes says, "Who has ever told the evils and the curses and the crimes of war? Who can describe the horrors of the carnage of battle? Who can portray the fiendish passions which reign there? If there is anything in which earth, more than any other, resembles hell, it is in its wars."

John Howe, says, "Very plain it is, that war is a mark of the apostasy, and stigmatizes man as fallen from God, in a degenerated, revolted state; it is the horrid issue of man's having forsaken God, and of their being abandoned by him to the hurry of their own furious lusts and passions."

About Home.

The days are growing shorter.

Clambakes are becoming very popular up the river.

The canvassers for the new Directory are busy just now.

Blackberries have made their appearance in the market, ready to take the place of strawberries which are on the wane.

The new Board of Fire Wards met at the City Hall last evening and took the oath of office and organized for the business of the year.

Mr. Abraham is arranging to put an additional story on his block on Bellevue Avenue. This will be a great improvement and make the stores there more popular than ever.

"Newport and How to See It" is now published and ready for delivery. It is much larger than heretofore and finely illustrated with views of cottages &c. It contains also, a complete list of summer residences, the tide tables, distances and other valuable reading matter. The book was neatly printed by D. E. Graham Jr. at the DAILY NEWS Job Office.

Mr. H. H. Fay's school for young gentlemen is deservedly popular. Many of the first families in the country are among its patrons, and all speak of the institution in the highest terms.

CHANGE.—Dr. Wm H. Smith has removed his dentistry office to Kinsley's building, corner of Thames and Greene streets. See Advertisement.

THROWING STONES.—A boy was arrested at Tiverton, yesterday, for throwing stones at the cars. He was brought to this city for trial.

HAVE PITY.—The ambition of certain hostlers to have high headed horses sometimes leads to acts of the most barbarous cruelty. We saw a span of noble beasts yesterday, so tightly checked up, that while standing still, their mouths were drawn wide open so that they could not close them. They were kept a long time in this painful position, while the ignorant and brutal driver lounged cosily on his seat, regardless of the torture he was inflicting. The same animals when driven carried their heads in a manner that made them look more like dromedaries than noble horses as they were. We would suggest that in the absence of a society for the prevention of cruelty to animals, the police should check such barbarism as this.

GREENWICH SEMINARY.—The commencement exercises at East Greenwich Seminary yesterday, were of a very interesting character, and fully sustain the past high standing of the school.

Diplomas were awarded to a large graduating class consisting of twelve young ladies and eight young gentlemen, in Literary course, and, also, to six young gentlemen and one young lady in the Commercial department.

It was a novel and interesting incident to see one student receive three diplomas, namely, in the regular Literary course and also in the Commercial and Musical departments. It added somewhat to the interest of the occasion that it was a young lady, Miss Mary E. Hart, of Jacksonville, Florida, who had thus covered herself with triple honors.

Several pleasant surprises occurred at the close of the exercises. Miss Phelps, the retiring preceptress, received a beautiful gold chain, presented by Mary L. Conley in behalf of the ladies of the graduating class.

Professor Eastman was likewise surprised with the gift of a finely bound copy of Bryant's Translation of the Iliad, presented by Charles Phelps, from the young gentlemen of the graduating class.

Miss Goding, teacher of Ornamentals, received from her pupils, a very costly frame for one of her fine Oil paintings.

A parting song, written by Mary L. Conley, of the graduating class was sung by the class in the tune 'Sweet Home.'

On Tuesday, eleven young gentleman competed in Declamation and nine young ladies in Select Readings.

Never have we seen performances of this kind, of so high an average of excellence. The prizes were awarded, for excellence in Declamations, to Arthur E. Nickerson, and, for excellence in Reading, to Miss S. Lenora Tillinghast.

Prizes were also presented to Mary C. Sheffield and David S. Baker, jr., for excellence in Composition.

The new Principal Rev. David H. Ela, is winning his way to the hearts of the students and the confidence of the Patrons and Trustees.

Young persons desiring an education can scarcely do better than to go to East Greenwich Semenary.

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach, relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtue. It is to these characteristics that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

Hostetter's Stomach Bitters are sold in bottles only, and the trade-mark blown in the glass and engraved on the label, is the test of genuineness. Beware of counterfeits.

For Chilblains, Corns, Bunions, Frozen Limbs, Felons, Bruises, Burns, Cuts, &c., wrap up with a cloth and wet with the Lotion. It will take the fire out of the worst kind of Burns as soon as applied, giving instant relief.

Visit to the Schools.

The annual visit of the city officers and school board made yesterday, was a pleasant though somewhat laborious service, all those in the city, some thirty in number, were visited. A report of each school, is of course out of the question. Those not named appeared as well as those designated, and exercises referred to in this notice were no more interesting than others not reported.

How it might have been if the visitors had staid longer we cannot say, but the deportment of the scholars during their sojourn was absolutely perfect. We never spent six hours in school before, without witnessing a single instance of misbehavior.

We note in Miss McConnell's school excellent drawing and singing, and some rare voices; the same in Mr. H. W. Clarke's also in Miss Peabody's. No school in the city surpasses hers in music or in drawing, when the age of pupils is considered. Master Mahoney's drawing would honor any school in the country. It was very pleasant to see one hundred and twelve little ones in the school of Misses Fales and Tilley on Willow street, though the crowded room suggested the thought of increased accommodations and regret that two rooms, with one teacher in each department, could not be provided for the swarm of children who attend there. More time was spent in Mr. T. H. Clarke's and in the high school, which was well repaid by the interest of the exercises and the proficiency of the scholars. The absence of pupils from the high school was a matter of regret to the visitors.

We conclude that flowers abound more in the north part of the city than in the south, as the school rooms of the former were much more profusely supplied then the latter.

The singing was excellent as a whole. We have referred to a few of the schools in this report, but there were sweet songs sweetly sung in many others whose tones still linger in our memory. Mr. French is doing a good work.

The day ended by a gathering in Coddington Hall presided over by Mr. Hammett, where the members of the City Government, the School Board, the male teachers, and a few visitors sat down to a bountiful collation. Grace was said by Rev. Mr. Leavitt, and the repast was followed by brief remarks by several speakers.

Mr. Leavitt expressed his gratification with the observations of the day, which had been complete but for the falling off of scholars in the higher grades. Mr. Fay spoke in high terms of Mr. Tilton's labors and of his hearty good will to the public schools of Newport; his own school to the contrary notwithstanding. Rev. Mr. Chase spoke in high praise of schools of this city. Mr. Coggeshall alluded with great feeling to the anticipated withdrawal of Mr. Tilton's, great services in the city, paying a deserved compliment to the press. Mr. Tilton, with equal feeling, spoke of his removal, disclaiming any special merit, and bearing witness to the great consideration of kindness with which he had been treated in Newport, to the liberality of the school board and city government, and bespeaking for his successor, in whom he expressed the greatest confidence, the same hearty cooperation he had enjoyed.

Mr. Hammett spoke in terms of just praise of Mr. Tilton's labors. Mr. Small referred to his pleasant relations to the Superintendent He believed a deeper sense of the worth of educationn, would induce parents to keep their children in school till the entire course had been mastered, and referred to an advertisement in a Boston paper for a young man's service to which it once appended the words "A graduate of the High School preferred," and concluded everybody would prefer those who had been through the course. Mr. Bush attributed nine tenths of the school interest and school efficiency of Newport, to Mr. Tilton's labors, saying he was loved by the people of Newport with no common love, and that his departure would be lamented as a public misfortune.

Thus ended "the feast of reason and the flow of soul" without any bowl. We conclude our notice, as the ministers do their sermons, with an application or two.

The one obstacle, as it seems to us, to the success of the educational machinery of Newport, is the usage, prevalent, alas! elsewhere as well as here, of parents taking their children from the schools before the course of study is completed. What avail commodious and pleasant buildings, and able corps of teachers, and an efficient superintendent if three-fourths of the pupils are removed from the schools in the midst of their studies? If necessity be pleaded, we reply *education is a necessity*, one of the greatest necessities, too, of life. A parent had better work, deny himself, beg, borrow, do anything but steal, rather than take his child from such privileges as Newport children enjoy in her excellent schools. It is not *necessity* so much as a want of appreciation of the worth of education and of the great facilities for its acquisition here offered. Parents in independent circumstances, at their own caprice, or worse still, at the caprice of their children, remove them from school, and the penalty is life long ignorance and a hundred openings to usefulness closed to them forever. These things ought not so to be, and we commend this subject to the more serious thought of the friends of our city.

One thing more. It is not to be denied that the resignation of Mr. Tilton casts a shadow over Newport school interests.—Somehow or other Mr. Tilton has got down into the hearts of the people, and that is the place for a man to be in order to influence, He is a great power in the city. The teachers love him, the parents love him, and, most of all, the pupils love him. He is a Newport idol. But he is going away. A position of great usefulness and power, unsought by him, is thrust upon him. The benediction of an entire city goes with him. No one can blame him. Life is short, at the longest. Let every man take the best chance for usefulness which offers. No common chance is offered Mr. Tilton as the successor of Dr. Taylor.

But Mr. Tilton has done his work too faithfully to have his labors end with his removal from us. His is work that will last. Newport schools will not die for his going away. Its educational interest will not decline but advance.

It were a compliment to our superintendent's work if he had done nothing that would outlast his immediate presence. We shall miss him, but not lose him, for his work is all around us. We bespeak, therefore, for the community a hopeful spirit, and for his successor a warm greeting and an earnest cooperation. We mistake the feeling at the table at Coddington Hall last night, if the conviction of every gentleman present was not that we have an Elisha to wear the mantle of our departing Elijah. As we listened to the excellent speech of Mr. Small we said, this is the right man in the right place, the authorities have done a wise thing in electing him to the superintendency of schools. Now let the people sustain him.

Ask your neighbor what she thinks of the Weed Sewing Machine. If she don't say it is the best, don't have it. We are willing to stand or fall on its merits. Hibbard & Hawkins, 190 Westminster street.

No accidents have ever occurred from burning, storing or handling Pratt's Astral Oil. Over 100,000 families, who continue to use it, can testify to its perfect safety. It gives also a clear, soft and beautiful light—unequalled even by gas.

The worst Coughs yield, as if by magic, to the wonderful curative powers of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It also surpasses anything else ever before discovered for the cure of Pimples, Blotches and Rashes on the face; also for Erysipelas, Salt Rheum, and all Skin and Scrofulous diseases. Sold by druggists.

Centralization is one of the bugbears of American politics. Every business man desires it. THE AMERICAN HOUSE, BOSTON, offers not only sumptuous and quiet suites of rooms to families, but the very centre of business to merchants and commercial travelers.

Henry H. Fay's

School for Boys.

Cor. Cottage and Catherine Streets.

The Summer session of this school, now in its eighteenth year, commenced May 8th, and continues until October 1st, 1871.

Boys from seven to eighteen years of age are admitted as day scholars at any time and instructed thoroughly in all branches necessary to a preparation for College or Commercial pursuits. Pupils now preparing for Harvard, will enter in July and September and others will follow in 1872. A class will enter the Yale Scientific School in September.

Private lessons upon reasonable terms can be given at the school, or at the residences of pupils.

Mr. Fay respectfully refers to his past and present patrons among the permanent and Summer Residents of Newport.

To the Ladies of Newport and Vicinity.

Annable & Allen of Providence,

Have at the urgent request of many citizens of Newport, leased a store on Thames st., near the Post-office, for a few months. Being satisfied that there is room for one more first-class Dry Goods store in this city, they hope by polite treatment of customers, representing all goods as they are, and selling at all times at a SMALL ADVANCE FROM COST, to receive a share of your patronage.

We shall open July 8th with a choice stock of goods at very low prices.

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation, while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50 a bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers.

Love Your Little Brother.

I had a little brother,
And every day he crept
In sadness to his brother's tomb,
And laid him down and wept.

And when I asked him why
He mourned so long and sore,
He answer'd through his tears, "Because
I did not love him more.

"Sometimes I was not kind,
Or cross or coldly spake";
And then he turn'd away and sobb'd
As though his heart would break.

Brothers and sisters are a gift
Of mercy from the skies,
And may I always think of this
Whene'er they meet my eyes.

Be tender, good and kind,
And love thee in my heart,
Lest I should sigh with bitter grief
When we are called to part.

THE

New Orleans, Mobile and Texas

RAILROAD COMPANY

Are building a first-class railroad, from Mobile, Alabama, to Houston, Texas, a distance of 475 miles. The stockholders have paid in, and already expended upon the work, nearly **TEN MILLION DOLLARS**, and two-thirds of the entire road has been built. It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means, before offering any of its securities to the public.

Among the leading stockholders are HON. E. D. MORGAN, HON. JOHN A. GRISWOLD, MESSRS. MORTON, BLISS & CO., J. & W. SELIGMAN & CO., L. VON HOFFMAN & CO., JAMES H. BANKER, HARRISON DURKEE, JOHN STEWARD, and other well known capitalists.

The Company now offer for sale the

Eight Per Cent Mortgage Bonds.

upon that part of the line west of the Mississippi River which is considered so important to Louisiana that state aid, to the amount of $8,300,000, has been granted or guaranteed to the enterprise.

The Bonds are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, the principal and interest of the latter being guaranteed by the State of Louisiana.— The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000 or £200 each, interest payable January and July, at the rates of eight per cent currency in New York or seven per cent, gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered if desired.

One thousand dollars invested in these eight per cent bonds will give the purchaser more than seventy-five per cent greater annual interest than the same amount invested in the new Government Five Per Cents.

The Bonds are dated May 1, 1871. The first coupon will be an additional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent, currency from May 1 to date of remittance.

1st Mortgage 7 per cent. Gold Bonds

At 90 and Accrued Interest in Currency,
ON A COMPLETED ROAD,
FREE OF U. S. TAX.

This road is now in the dullest season of the year earning more than 7 per cent. net on the amount of its mortgage obligations.

Its 7 per cent. gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 30 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most farsighted Corporation in the West. A limited quantity still for sale by

HELMBOLD'S

FLUID EXTRACT BUCHU

Has Acquired a World-Wide Fame.

All of my preparations are meritorious. A period of twenty years has PROVED THIS to be the case.

See remarks made by Benjamin Travers, F. R. C. S. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary—more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic, with this invaluable attribute, that it is applicable to a state of the system so sunken and yet so irritable as renders other substances of the tonic class unavailable or injurious.

See Remarks of the Great Chemists and Pill Men of America,

WM. R. WARNER & CO.,
154 North Third street.
Philadelphia, Pa.

H. T. HELMBOLD:

Esteemed Friend: I congratulate you on having the handsomest and at the same time the MOST EFFECTIVE PILL that I have ever known for the purpose intended. WM. R. WARNER & CO.

H. T. HELMBOLD will remark, in conclusion, that his remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years; the sale of them in that time proves their value. All have been benefited by them who have followed my instructions, and to-day they stand *UNEQUALLED* in the extent of their sale, and *UNSURPASSED* by any Medicament in the Dispensatory of the United States, not excepting a single *HERB, ROOT, PLANT*, or scientific preparation.

Pharmaceutical I claim all mine to be, and have never patented a single one.

ALL STAND ON THEIR MERITS.

To dispel any impression of prejudice that might exist in the minds of many against my Preparations from the publicity given through advertising, and that I am and have been a Druggist for a period of twenty years, and more conclusively to prove this, see letter:

From the Largest Manufacturing Chemists in the World.

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman, Manufacturing Chemists, Ninth & Brown streets, Philadelphia.

The Pill I have thought of offering to the afflicted for ten years.

They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the Pill itself is made, the bottle, label, wrapper—all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and am really proud of them.

Instead of the nauseous-looking cathartic-prepared Pill vended generally and put up in wooden boxes and made generally or offered by those having no experience as physicians, druggists, or manufacturers of medicines, test the medicine offered by your obedient servant,

JURUBEBA.

Is a South American plant that has been used for many years by the medical faculty of those countries with wonderful efficacy, and is a Sure and Perfect Remedy for all Diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER OR THEIR CONCOMITANTS.

Dr. WELLS' EXTRACT of JURUBEBA

is a most perfect alterative, and is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

Dr. Wells' Extract of Jurubeba

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system.

It is NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such; but is simply a powerful alterative giving health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments.

ψυχη Psychomancy. This word is derived from the Greek, signifying the power of the soul, spirit or mind, and is the basis of all human knowledge. Psychomancy is the title of a new work of 400 pages, by Herbert Hamilton, B. A., giving full instruction in the science of Soul Charming and Psychologic Fascination; how to exert this wonderful power over men or animals instantaneously, at will. It teaches Mesmerism, how to become Trance or Writing Mediums, Divination, Spiritualism, Alchemy, Philosophy of omens and Dreams, Brigham Young's Harem, Guide to Marriage, &c. This is the only book in English language professing to teach this occult power, and is of immense advantage to the Merchant in selling goods, the Lawyer in gaining the confidence of Jurors, the Physician in healing the sick; to lovers, in securing the affections of the opposite sex, and all seeking riches or happiness. Price by mail in cloth, $1.25; paper covers, $1. Agents wanted for this book, Private Medical Works, Perfumery, Jewelry, &c., who will receive sample free. Address T. W.
